LIONS MINSTREL SHOW MAR. 9, 10 AT NEW LENOX

A minstrel and variety show will be given by the New Lenox Lions club in the Haven avenue school auditorium March 9 and 10, beginning at 8 o'clock each night.

The show, an annual entertainment, will be similar to that of last year, with variety acts and outside talent. Neatness Wilson and Robert Rich are co-chairmen in charge of the show, and promise an entertaining evening. Miss Carolyn Cole and Robert Rich are practicing steadily for a duet. Mrs. John Minion is accompanying all numbers for the show and is giving much time to this project.

As well as working hard for the coming show, the Lions are working very diligently on building and remodeling their new quarters on South Cedar road, formerly St. Jude's church building, which will be available for rent in the near future. There will be kitchen facilities, a dance floor, and orchestra pit, and a new oil heating system. Last night (Wednesday) the Lions met in their new hall and did much work in cleaning it.

Red Cross Drive to Be Started Soon

The annual Red Cross drive for funds to carry on their multitude of duties in time of disaster and war, and in every day life, will start soon.

The demands on the Red Cross have been especially heavy since the beginning of the Korean war. They have been called upon to supply vast quantities of whole blood and blood plasma, in addition to all their other duties in connection with hospital service and contacts with our troops.

Announcement will be made later of the workers who are giving so generously of their time in order to solicit funds and who deserve your full cooperation.

Farmers Sign For Conservation Work

Many Will County farmers have already signed up to participate in the 1951 Agricultural Conservation program, according to Mr. Conrad Bormis, chairman of the County PMA committee.

Farmers are showing a great deal of interest in the two priority practices, sod waterway construction and the establishment or improvement of pasture. One out of every five farmers have requested assistance on one or both of these practices.

Other practices on which assistance is granted include: Contour Intertilled; Contour Drilled; Contour Stripcropping; Tree Planting; Green Manure; Limestone; Fertilizer; and Rock Phosphate. These practices will all pay good dividends. To you as an individual they mean a better farm—to the Nation they mean added strength in soil reserves.

Each producer of Will County will be given an opportunity to sign up for program assistance. You may sign up at the PMA Office in Joliet, anytime thru March 1951. The office is not open on Saturdays.

CIVIC ASS'N. TO HAVE SPECIAL MEETING MAR. 1

The Mokena Civic association held an open meeting Wednesday, February 21, to discuss various projects for the benefit of the children of this community.

This meeting was well attended, with about 70 people present, and many good ideas were brought out covering various projects that should be considered.

Paul Johnson, Editor of Prairie Farmer, gave an interesting talk on community affairs and stressed the fact that there must be cooperation of all the organizations in the community to accomplish anything worthwhile.

In compliance with the resolution passed at this meeting a special meeting of the committees from each organization in Mokena will be held at 8 p.m. Thursday, March 1.

These representatives will be asked to draft a questionnaire to send to the residents of the community in order to ascertain what the majority would want done first toward projects for the young people of the community.

A. T. Anderson, Extension Economist of Illinois University will be present to advise the group in connection with getting the program started, and this will require the whole hearted support of every organization and individual in this neighborhood.

FINE ROCK ISLAND LINES FOR VIOLATION

(CNS) An agreed fine of \$300 was entered in Federal court Tuesday against the Rock Island Lines for violating the federal safety law requiring 85 per cent of cars in a train to have air brakes operating.

Three violations were charged, all on Nov. 1, 1950, in which no cars were connected on the following transfer trains: Diesel engine 520 with 20 cars from North Interchange yard to South yard; Diesel 598 with 17 cars from North Interchange yard to South yard; and Diesel 520 with 36 cars from South yard to North Interchange yard.

The bituminous coal industry has pledged "all the coal for any emergency" providing it has sufficient railroad transportation, essential supplies and machinery, and needed manpower.

CANDY CARAVAN organized by Bishop Bernard J. Sheil, C.Y.O. Director-General, is rolling through Chicago to collect candy for distribution to the children of Germany on Easter Sunday. P.T.A. PROJECT FOR YEAR—BAKE AND SEW SALE

The Mokena P.T.A. will have their only "ways and means" project of the year on Saturday, March 3, when they will have a bakery and fancy goods sale in Cooper and Hostert's garage, from 11 a.m. until 2 p.m. This is the only opportunity that school patrons, and others interested in benefits for the school children, will have to assist the organization.

A three hour sale of this kind is unusual in Mokena but plans are being made for the sale of an especially large assortment of home baked food and fancy goods.

Donations of any kind will be appreciated by the "ways and means" committee members and no one will be solicited personally. Any one who will contribute may contact any of the committee members as shown in their advertisement on another page in this paper.

The two, Mrs. Angela Palombi, 40, and her small son Raymond, were waiting at the four corners, intersection of routes 30 and 45 on February 23. Two state police officers went to their aid and took them to Joliet.

There it was learned that their home is in Amarillo, Texas, and they were trying to reach Little Falls, N. Y. Peter McCarthy came to their rescue and furnished them with transportation as he so often does when he finds a traveler who needs help.

Last week she underwent surgery again for the removal of her other leg, and passed away shortly thereafter.

Mrs. Kolsted was born in Danville and lived 15 years in Frankfort. Her husband then was maintenance man for St. Peter's Evangelical church for many years.

Heavy Fog Slows Down Motorists

Mrs. Hugo Niethammer of Mokena, assisted by Mrs. William Bradley, entertained at an impromptu party in her home Friday night, when a fog, reported the heaviest in years, made driving too hazardous for comfort. Three Mokena couples in a car. Three Mokena couples in a car. Three Mokena couples in a car.

The car driven by David Kropp went off the road on the Rock Island right-of-way at Wolf road, although it was going very slowly. Pau Cowhig and Stanley Baudry were passing and helped to get the car back on the road.

While the group was picking up a passenger at New Lenox the young people decided that "discretion is the better part of valor" or else that the occasion wasn't worth all the hazards involved. After phoning home to see what was offered there in the way of entertainment, they returned to Mokena and enjoyed dancing at Miss Audrey Niethammer's. Later in the evening refreshments were served at a table decorated "with all the trimmings."

A motorist driving along the Southwest highway toward Chicago Friday night reported seeing five cars in the ditches adjacent to the slow curves in the Palos area.

UNIT OBSERVED 88TH BIRTHDAY OF ONE MEMBER

An enjoyable afternoon was spent Friday in the home of Mrs. J. R. Bentley and Miss Caroline Bentley at New Lenox at a combined Home Bureau meeting and birthday party held in honor of Mrs. Bentley who was celebrating her 88th birthday anniversary.

Co-hostesses were Mrs. Laura Carlson and Mrs. George J. Close. After dessert-coffee the unit presented Mrs. Bentley with a corsage of red and white carnations and sang the Happy Birthday song to her. Mrs. Bentley is a charter member of the unit.

Roll was called with each member reporting her pet economy. Mrs. Jacob Koller, membership chairman reported that 10 New Lenox women attended "Play Day" at Manhattan, and that the local club now has some 1800 points to their credit. She reported that Homemakers Camp would be held the third week in June, with camp cost approximately the same as last year. Anyone interested in making reservations are asked to notify Mrs. Betty Wingrove at the Home Bureau office.

Mrs. John Olson, 4H club chairman, reported that the Bluebirds 4-H'ers are giving a square dance March 16 at the Haven avenue school. Mrs. Mildred Berens, radio chairman, reported the New Lenox unit program would be given in the New Lenox unit program would be given in May, topic to be "Homemakers at 4-H Camp". Mrs. Ivan Archibald announced that the X-ray unit will be at New Lenox in April and it is hoped that New Lenox will turn out 100% to take this test, which is simple but important and requires only a short time but worth every minute given.

Will County Home Bureau will have a rummage sale March 17 at the Dunbar Community center in Joliet. Any clothing to be given may be left with Mrs. Davis Gougar, Route 30 and Gougar road.

Other announcements were that the Red Cross drive will start next month, and family night will be held during March. After an interesting major lesson on Rug Making given by Mrs. Raymond Reiter, Mrs. Glen Batson gave the minor lesson on making Hard Meringue.

There were 28 members and 11 guests present. The next meeting will be at the home of Mrs. Mildred Berens at Joliet March 16. Co-hostesses will be Mrs. Clara Schneider and Mrs. Walter White, also of Joliet. Anyone desiring a ride is asked to meet at the club store in New Lenox at one o'clock.

Plan Music Festival For Grade Pupils

At its meeting last Tuesday, the Mokena Music association made plans to hold its second music festival in Mokena on April 21st, reports Mr. Tom Powers, president. Miss Catherine Lilley, instrumental music teacher in Mokena, will cooperate with Mrs. Ray Lemke, music supervisor in many Will county rural schools, in planning the program for the day, and evening. More than 150 grade school students will appear in instrumental solos, ensembles or choral groups, and will be heard by their contemporaries. All public grade schools in our Frankfort-Mokena-New Lenox territory, which is now considering the question of a community high school, have been invited to participate in this Music Festival.

It is hoped this will be a Red Letter Day in musical circles for Mokena.

Gilbert M. Ott, 55 Succumbs, Feb. 24

Gilbert M. (Dick) Ott, son of the late Mr. and Mrs. Michael Ott, long time Homer residents, died in Silver Cross hospital, Saturday morning, February 24, of pneumonia. He had been in poor health for many years.

He was born in Homer township August 26, 1895, and lived there during his boyhood, attending Ross school. After returning from service in World War I he spent some time in Wisconsin, and married Cecelia Ward of Ladysmith, Wis. Soon after, they came to Lockport where they have lived since.

Besides his wife, Mr. Ott leaves a daughter, Mrs. Norma Homering, one son, Donald, and two grandchildren, all of Lockport; also three sisters, Mrs. Irving Bentley and Mrs. Marion White, both of Lockport and Mrs. George Welter of Homer; and five brothers, George of Homer, and Walter, Clarence, Howard and Raymond, all of Lockport.

Funeral services were held in St. Dennis church, Lockport, Tuesday morning with interment in Calvary cemetery.

Small Boy Makes Big Trip Unescorted

Sonny Dale Kathka, 5 years old, has been visiting in the home of his grandparents, Mr. and Mrs. Joseph Ashley in Mokena. He came here with his mother, Mrs. Jacquelin Kathka, who returned to her home in Salt Lake City, Utah, some time ago.

Dale left the Municipal airport unaccompanied to go back by air to his home in Utah. He left Wednesday night and expected to reach his home town Thursday morning about 6 o'clock.

Interesting Active Life for Past 50 Years Revealed at Golden Anniversary

Two hundred persons gathered in the Marley Community church Sunday afternoon from 2 to 5 to congratulate Mr. and Mrs. E. D. Gillett of Marley who were celebrating their 50th wedding anniversary.

The church parlors were decorated in keeping with the event and the serving tables were laid with lace and linen covers. Lighted tapers added to the attractiveness of the anniversary cake and punch bowl.

Mr. Everett Pugh of Chicago took moving pictures of the honored couple and of the guests.

Mrs. Gillett wore a corsage of yellow roses and with her husband enjoyed meeting the many guests.

Mrs. Gillett, the former Marie Tonn, was born 66 years ago in Bromberg, Germany and came to this country with her parents, the late Mr. and Mrs. Ferdinand Tonn when she was two years old. They lived for a while on the farm on Maple road which is now occupied and owned by the Wilbert Spiess. Later they moved to Mokena.

Mr. Gillett was born in Chicago 74 years ago. His parents were the late Edward and Emily Gillett. When he was four years old his family moved to New Lenox and located at what is termed the round barn farm on route 30. They had a dairy business and Mr. Gillett worked in the dairy as a young man. Later he learned the carpenter trade and built his first building, using a buck saw and hand ax, when he was 13 years old. That building is still standing in the south part of New Lenox and is owned by Andrew Hobbs. He next learned the barber trade which took him to Chicago and where he had his own barber shop.

It was February 20, 1901 when he and Miss Tonn were united in marriage at a ceremony performed in the Tonn home in Mokena. He plied the barber's trade in New Lenox for a year and then he and his wife moved to Corrine, Utah

Leslie Johnson, of Tinley Park, with more time than money, decided to ride his motorcycle on his month's vacation in January in Mexico. His wife, Natalie, joined him later in Monterey, about 150 miles south of the border. The two spent about 11 days gypsying around the biways of Mexico roads via motorcycle going to inaccessible villages taking pictures and trying out their Spanish. It was Fiesta season, and they took interesting pictures of native dances in one remote Indian village where white people are seldom seen. American missionaries showed them the way.

Mrs. Johnson, founder and director of the Orchard Hill Kindergarten in Tinley Park, visited the American school in Monterey, where Mr. Arpee, a native Chicagoan, and principal of the school, showed movies of Orchard Hill kindergarten to the pupils of their kindergarten and lower grades. A projector was borrowed from the American Consulate to make this possible. The Spanish and American children were delighted in seeing our local children at work and play in the farm school, but most of all in seeing the children in snow and going on sleigh rides. This experience was a new one to them, as the children south of the border have sunshine all year, have an outdoor gymnasium, and need no provisions for cloak rooms in their school, for they seldom wear wraps.

Mrs. Johnson took pictures of the kindergarten, first grade and outside gym classes, which will be shown along with pictures of their own farm school to parents of Orchard Hill on a Parent's Night in March. He also took pictures of many native industries; the harvesting and threshing of coffee; brewing and bottling of native rum; harvesting and processing of sugar cane.

The Johnsons visited Mexican farms, to compare their methods with ours; went on a night fishing trip, hunting for alligators; attended a Mexican version of a square dance, and in general tried to participate in and see as much of native life as time would allow.

Mrs. Johnson made the trip both ways by bus and returned to her school after two weeks, while her husband continued his stay to see and take pictures of the world famous Tampico Fiesta, with flowers, queens, bands and dancing in the streets around the town's square.

Tampico is an ancient, cosmopolitan and colorful seaport on the gulf of Mexico.

He then had to say "good bye" to sunny Mexico and braved many a storm and cold weather, and icy roads that disconcerted even the Texans, to make his motorcycle odyssey back home to Tinley Park.

In a hurry? Weaving in and out of traffic, passing on hills and curves, may save you a minute—or lose a lifetime.

where he also established a barber shop.

After six years in Corrine, they traveled back to Mokena and soon moved to Tinley Park where he had a barber shop for several years. Then the west beckoned again and another trip with the family was made to Utah, but this time they did not stay long. Returning to Mokena, Mr. Gillett established a grocery store, in what is now the Boleman drug store, and when the News-Bulletin was started in 1919, Mr. Gillett was one of the first advertisers.

It was 1923 when the family moved to Marley and Mr. Gillett busied himself as a carpenter and painter, and is still active around his home. Both Mr. and Mrs. Gillett are in splendid health, enjoying their own housework. Mr. Gillett was using a gold headed cane Sunday, one which was handed down from his grandfather, Isaac Mills, which was given to the latter on his golden wedding anniversary in 1890. This cane is to be given to the oldest son upon the death of the present owner and so to continue in the family.

Receiving guests with the honored couple Sunday were their children, Mrs. Iva Sproat and Mrs. Frances Lauffer, Marley; Harley, Mokena, Robert and Burton, New Lenox. Their sons Dwight and Wilson of California were unable to be present. There are 15 grand children and four great grand children. A daughter Leona, and son Alvin, died in their infancy.

Presiding at the coffee urn and punch bowl Sunday were Mrs. Robert Gillett and Mrs. Harley Gillette. A niece, Mrs. Walter Spiess of Mokena served the wedding cake. These were assisted by Mrs. Roy Erdman, New Lenox. Mrs. Fred Brown, Mrs. Loren Sams, Mrs. Harwood Stellwagon and Miss Agnes Hiley, Marley.

Many beautiful gifts were presented Mr. and Mrs. Gillett, among which was a glass-enclosed gold clock, a gift from their children, and two books containing 50 silver dollars each.

Survey Lists Top 25 Records Of All Times

Surveys made among music publishers, composers, bandleaders, disc jockeys and music stores showed that records made by Bing Crosby, Artie Shaw and Glenn Miller lead a list of "The Top 25 Records of All Time."

Results of the poll, which are published in the February issue of Cosmopolitan magazine, list three of Bing's records among the top 25, with Shaw and Guy Lombardo winning two places each.

Crosby's "White Christmas," which sold over eight million copies, was named most popular in the survey and his "Jingle Bells" was runner-up.

The next four platters, listed in

order of their popularity, are: Glenn Miller's "In the Mood"; Artie Shaw's "Begin the Beguine"; Les Brown's "Sentimental Journey"; and Shaw's "Stardust." Guy Lombardo's "Winter Wonderland" and "Humoresque" were in 11th and 24th places, respectively. The oldest record on the list is Gene Austin's "My Blue Heaven," made in 1927. "The all-time hits," says radio and TV columnist Jack O'Brian, who reports the survey, "as a rule, are not flash favorites. The recordings that endure are those people genuinely like to listen to—not the bizarre or novel."

Pre-Spring Meal Aids Seasonal Growth of Trees

Most home owners are keenly aware of the value of fertilization to help plants, shrubs and lawns. Unfortunately, the need of trees, which are simply large plants, for additional nutriment is too frequently ignored. In depleted soils, they'll require man's help even more than the smaller plants because their appetites are bigger.

With Spring not too far off, Martin L. Davey, Jr., head of the Davey tree experts, urges suburban dwellers to include trees in the general fertilization program. It is not necessary to wait for the actual growing season. Special tree food high in nitrogen content plus such humus-forming materials as shredded manure or peat moss can be applied any time the ground is not frozen. Early application by punching holes over the entire root area helps trees perk up at the very start of the growing season. Without the required elements growing vigor is apt to lag.

Aside from providing necessary food elements such fertilization serves other important functions. Basically, the presence of humus corrects many of the weaknesses of an unfavorable soil texture... whether sand or clay. By its own ability to hold water, increases the water-holding capacity of sandy soil. Also, high humus content allows air to enter and circulate more readily in clay soils. Fertilized clay soils are less likely to harden and crack. Growth of bacteria, which makes soil nutrients available to the higher plants, is encouraged by the presence of humus.

In the forest, leaves and other matter decay and are returned to the soil. Tidiness of home owners and competition among plant life and lawns for food mitigate against "civilized" trees getting an adequate diet.

State Treasurer Sets Example To Reduce Budget

State Treasurer William G. Stratton today submitted a budget calling for a decrease in the operational expense of that office of

\$98,600.00 for the next two years.

Appearing in person before the State Budgetary Commission, Stratton outlined his budget which calls for an expenditure of \$1,096,590.00 for the next two years. This compares with the \$1,195,280.00 appropriated for the previous biennium.

Stratton in asking for this greatly reduced budget said, "people are tired of paying exorbitant taxes in order to maintain extravagant management in public office. These

are trying times for everybody's pocketbook.

"The prodigal use of taxpayer's money must be stopped. This reduction, I believe, is a start in the right direction," Stratton declared.

Fifteen years of farm records study by University of Illinois agricultural economists show that sound conservation programs definitely pay off—in maintaining and improving soil resources and in producing larger yields and higher incomes.

To Northwestern University...

On Its 100th Anniversary

WE WHO LIVE in Northern Illinois are perhaps more aware than the rest of the world that here in our midst a great university has grown and reached maturity. But the influence of Northwestern and the products of its work are cherished wherever the arts and sciences have contributed to human progress.

Much of America's basic philosophy can be gained from a study of this institution's history—from its small beginning in the middle of the past century to its present leadership in education. And still more of what we all hope for is seen in the prospect of services Northwestern is yet to perform—from the promise it offers to the future of medicine, of law, of technology, of commerce, of culture, and of peace.

To Northwestern University after a hundred years, and to its great teachers of yesterday, today and tomorrow—our gratitude and our congratulations!
